Profile

The pacesetter in polymer modified bitumen products is also the leader in providing assistance to your pavement needs and projects. Wherever your location may be in the world, the leader in the polymer modified bitumen product Sealoflex® reaffirms its worldwide reputation day by day. We also support you and relieve you of problems thanks to our unique experience of 40 years of asphalt production, road construction and research and development.

Leader

Ooms has been one of the pathfinders in polymer modified bitumen since the 1970s. We export our products and services for the construction and maintenance of roads, airports and industrial pavements worldwide. Our main product lines are Sealoflex® polymer modified bitumen, asphalt reinforcement and coloured asphalt.

Quality, durability and life cycle concerns underlie our innovations. This means that our products need very little maintenance, last longer, are cost effective and are suitable for recycling at the end of their lives.

From conception to completion

Ooms has its own production facilities, design facilities and an R&D centre / laboratory that is one of the best in its field. Since 2012 we have been part of Strukton, one of the Netherland's top five construction companies. Thanks to this, we

have expertise available in all aspects of construction and we are able to execute infrastructure projects from conception to completion.

Worry free

Our experience and facilities serve as a basis for Ooms to offer you not only a wide range of high-quality asphalt products, but every conceivable support and assistance. We can unburden you by offering advice, pavement engineering, laboratory services, turnkey pavement solutions. Ooms makes it possible for you to execute large or small paving projects while keeping your hands free for your own core business.

Network

Ooms has a global presence through joint ventures, licensing agreements and representatives in the USA, Mexico, Brazil, China, Japan, Europe, Africa, the Middle East and India. Together with our partners, Ooms maintains a broad and flexible network that is committed to quality and adapting products and services to customers' needs
